

# Heavy Metal Field Gates

A heavy duty gate is essential for any farm, field or agricultural settings. Our high quality heavy metal field entrance gates are available in a range of designs and sizes. We offer a selection of two styles of metal field gates available singularly or in pairs with a choice of drop bolts. They arrive in a galvanised finish.

The top and bottom rails are 41.5mm tube, with middle rails which are 32mm tube.

**Specification:** Gates are 1.15m high. Hanging stile of 50mm x 25mm box section. Slam stile of 50mm x 25mm box section. Top and bottom rails 41.5mm tube, with middle rails 32mm tube. Fittings include adjustable hinges and padlockable sliding latch. Also available with welded mesh cladding, (600mm high x 50mm x 50mm x 4mm) to the bottom part of the gate, please see below.

## Heavy Metal Field Gates

Length	Standard Un-clad Ref	Clad with Wire Mesh Ref
1.20m	440800 ○	440880BM ●
2.10m	441100 ○	441110BM ●
2.40m	441200 ○	441220BM ●
2.70m	441300 ○	441330BM ●
3.00m	440200 ●	440220BM ●
3.30m	440300 ●	440330BM ●

# Estate Railings & Gates

Estate fencing has a classic style that everyone associates with country parks and rural estates.

Our traditional estate fencing is ideal for use as a continuous boundary fence in parkland, paddocks, deer parks, estates or estate grounds. The fencing is constructed from steel and is galvanised as standard. Our fencing and gates can be powder coated to your choice of colour.

Our Estate Fencing is ideal for use on uneven ground as it follows the contours of the ground and can easily be stepped. Please note: panels can only be stepped, not raked. Images show optional black PPC finish.

We have improved the traditional fence design and created an economical, modern, tubular version that is stronger, lighter and virtually maintenance free. All of our steel fencing is galvanised and has a 25 year service life guarantee.

### Metal Estate Railing Fencing

Description	Ref
Panel 2.00m wide overall x 1.20m high above finished ground level. End posts/uprights 50mm x 25mm RHS (end posts are drilled with 2 holes for bolting to the next panel). Product is galvanised as standard and PPC black is an optional extra.	079800 ○
End post for cut back panel	079801 ○
M8 x 65 Coach Bolt (2 per panel)	804100 ○
M8 washers	073304 ○

### Estate Railing Gates

Manufactured from the same high quality materials and with all the same benefits as the Estate Railings, this elegant gate is ideal for use with railings or in the place of any metal field gate. The graceful crook with the diagonal strengthening brace adds an attractive feature.

Any metal field gate clad with mesh should be hung on 114mm diameter posts.

### Estate Railing Gates

Description	Ref
1.20m wide	079400BM ○
3.00m wide	079500BM ○

# Post & Rail Special Heavy Morticed

This attractive design will appeal to those who want a timeless, traditional or agricultural style fencing with a rustic feel.

Comprising of half round vertical posts, with either three or four mortices, for the irregular sawn horizontal rails to insert into.

Allow one post for every 1.85m of fence, plus one for the end of the run.

For a 3-rail fence allow three rails per 1.85m and for a 4-rail fence, also allow four rails per 1.85m. All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years. The posts have a galvanised gangnail embedded in top to reduce splitting.

### Posts

Peeled half round softwood Jakcure® treated with a minimum of 125mm across the face. (Mortices 100 x 40mm are centred at 125mm, 500mm, 850mm, 1150mm from the top of the post).

Length	Ref
1.80m (3 Mortices)	150400 ■
2.30m (4 Mortices)	150600 ○

### Rails

Irregular sawn sections of softwood Jakcure® with a minimum girth of 250mm peeled, with ends tapered to fit mortices.

Length	Ref
2.00m approximately	150520 ■

### Handy Tip

After dividing the length of the fence run by the post intervals, always add one extra post to complete the run. Remember, corner posts take the place of ordinary posts. Aids for erecting posts - Shuv-holer and Monkey Hole Borer - see page 156.

### Corner Posts

Peeled round, softwood Jakcure® treated with a minimum diameter of 125mm. Morticed two ways. (Mortices 100mm x 40mm are centred at 125mm, 500mm, 850mm, 1150mm from the top of the post).

Length	Ref
1.80m (3 Mortices)	150900 ■
2.30m (4 Mortices)	151000 ○

### Nails

Description	Ref
1kg bag of 50mm Stainless Steel Nails	800710 ●
5kg box of 50mm Stainless Steel Nails	800750 ●

2kgs required for 180m of 3-rail fence. 3kgs required for 180m of 4-rail fence (441 nails approx. per kg).

- Stock items ○ Made to order (cannot be cancelled once ordered)

# Post & Rail Nailed

This highly durable and versatile fencing comprises of machine rounded half round vertical posts, with three horizontal machine rounded half round rails nailed to the flat face of the posts.

Due to the erratic price changes in raw material, we have temporarily removed prices from our Good Fencing Guide.

To see our latest prices, view our Post & Rail Nailed on our website by scanning the QR code.

Post and Rail Nailed fencing is a robust agricultural style system which can have 2, 3, or 4 rails depending on what is required.

## Square Post & Rail Fencing

Allow one post for every 1.80m of fence, plus one for the end of the run. This traditional versatile fencing consists of machine rounded half round posts, with three horizontal machine rounded half round rails, nailed to the flat face of the square posts.

Allow three rails for every 3.60m of 3-rail fencing.

All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.

**Recommendation:** When erecting post and rail fencing in the Summer it is advisable to set posts in concrete as it is very difficult or impossible to ram dry soil tight.

## Machine Rounded, Half Round Posts

Description	Ref
1.80m 115mm face	130400 ●
1.80m 125mm face	150110 ●
2.40m 125mm face	131300 ●

(2.40m posts are recommended for use in soft ground or a 1.50m high fence).

## Machine Rounded, Corner Posts

Jakcure® treated softwood with two sawn flat sides from round post of 125mm diameter.

Length	Ref
1.80m	130550 ●

## Half Round Rails

Machine rounded half round Jakcure® treated rails.

Description	Ref
3.60m long with 100mm face	135000 ●

“

Bought to replace post and rail fencing and pair of gates which had lasted for over 25 years - all items look to be of a similar quality. Special mention for the delivery driver who was a marvellous ambassador for the company.

Ian Brown, April 2020.

## Sawn Square Post & Rail Fencing

This sturdy fencing consists of sawn square section posts, with three horizontal rails, nailed to the posts. There is a choice of either half round rails or sawn square section rails.

Allow one post for every 1.80m of fence, plus one for the end of the run. Allow three rails for every 3.60m of 3-rail fencing.

## Sawn Square Posts

# Post & Rail Morticed

This attractive fencing consists of sawn square section posts, with three or four horizontal square section rails, morticed into the posts complete with our 25 year guarantee.

There are additional prick posts in between the posts at the mid bay point to give extra support.

Image showing intermediate post in Post & Rail Morticed system

Allow one post and one prick post for every 2.85m of fence, plus one post for the end of the run. Allow three rails per 2.85m run of 3-rail fence, and four rails per 2.85m of 4-rail fence.

All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years. The morticed posts have a galvanised gangnail embedded in the top to reduce splitting of the timber.

All fixings are heavily galvanised.

### Posts

125mm x 75mm section, weathered one way. Mortices 100mm x 40mm centred at 150mm, 530mm, 885mm and 1190mm from top of post. Sawn finish.

Length	Ref
1.80m (3 Mortices)	190200 ●
2.10m (4 Mortices)	190700 ○

### Square Rails

100mm x 38mm section, scarfed at both ends.

Length	Ref
3.00m	190300 ●

Due to the erratic price changes in raw material, we have temporarily removed prices from our Good Fencing Guide.

To see our latest prices, view our Post & Rail Morticed on our website by scanning the QR code.

Fencing and double gate are fantastic quality, really solid. We've had loads of positive feedback from people walking past and the guys who installed it said it made the job so much easier working with quality materials.

Ian, August 2019.

### Corner Posts

125mm x 125mm section, weathered two ways. Sawn finish.

Length	Ref
1.80m (3 Mortices)	190600 ●
2.10m (4 Mortices)	190800 ○

### Prick Posts

100mm x 38mm section, pointed with a sawn finish.

Length	Ref
1.50m long	190400 ●
1.80m long	190900 ○

### Nails

Description	Ref

5kg Tub of 100mm Galvanised Wire Nails	800350 ●
25kg Carton of 100mm Galvanised Wire Nails	800300 ●

Allow 11kg for 200m of 3-rail fence and 14kg for 200m of 4-rail fence. Approximately 77 nails per kg.

● Stock items ○ Made to order (cannot be cancelled once ordered)

# Chain Mesh Fence

For absolute economy and horse security this fence is highly recommended. It comprises half round vertical posts, machine rounded and pointed. One half round horizontal rail at the top of the fence and galvanised chain link below.

- All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.
- Specially designed with horse safety in mind.
- Galvanised mesh for longer life.
- Smaller holes in mesh to stop horses' feet becoming caught in wire and causing injuries.
- Superb value.

Allow one post for every 1.8m of fence plus one for the end of the run. Allow one top rail per 3.60m of fence and one 25m roll of 0.90m chain link per 25m run.

### Posts

Half round softwood, machine rounded and pointed 125mm across the face.

Length	Ref
1.80m	150110 ●

### Half Round Rails

Half round, machine rounded 100mm across face.

Length	Ref
3.60m	135000 ●

### Chain Link

50mm mesh conforms to B.S. 1722 Part 1, galvanising conforms to BS EN 10224, wire used is to BS EN 10233. Line wire is supplied with each roll.

Description	Ref
25m roll, height 0.90m, 2.5mm gauge	300100 ●

### Corner Posts

Two sawn flat sides from round posts of 125mm diameter.

Length	Ref
1.80m	130550 ●

### Staples / Nails

We suggest you use galvanised (barbed) staples 30mm x 3.15mm which would require 3kg. per 200m & 100mm galvanised wire nails 4kg. galvanised ring clips - sufficient for 200m. See page 154.

## Tree and Netting Stakes

Jakcure® treated tree stakes are machine rounded in two sizes 60mm and 75 diameter, and are available in lengths of up to 3m. A minimum of 22.3kg/m2 of preservative is used because of presence in the soil of fertilizers and dressings used in the modern orchard.

The Jakcure® treatment process meets fruit growers’ specifications, and depth of penetration makes the timber last longer, meaning strong stakes that will provide the best support. All timber is Jakcure® treated softwood guaranteed for 25 years.

When its time to overhaul orchards, and replace any rotten or worn tree stakes, replacing them all with Jacksons stakes will mean you will have good strong stakes that will standing for longer, and this means you will save money by not having to replace them as soon as ordinary non Jakcure® stakes, our stakes are guaranteed for 25 years.

# Cleft Chestnut Fencing

A simple, fast and cost-effective demarcation solution, our Cleft Chestnut fencing is assembled using best quality galvanised 14 gauge (2mm) wire with 4 strands per row. Pales are cleft, peeled and pointed at one end.

Please note: this Chestnut fencing is not Jakcure® treated timber as Chestnut is a hardwood and therefore cannot be guaranteed for 25 years.

Style A - (2 rows of wire)

Style B - (3 rows of wire)

Approximate spacing: 81 pales in a 9.10m roll. Pales are 75mm spaced. We recommend installation with our machine round Jakcure® posts for long life.

# Timber Kissing Gate

A kissing gate is a type of gate which allows the movement of people but not livestock to pass through, keeping them safe and enclosed within an area. This is an alternative to the stile. The term derives from the fact that the gate ‘kisses’ the stops at the two extremes of its travel.

### Timber Kissing Gate

This style of gate has been commonplace in rural areas for years. They are particularly useful in districts populated by older people, where a stile is unsuitable. The kissing gate allows easy access through fences with no climbing necessary.

**Specification:** The set consists of one 1.05m wide, five bar, Jakcure® treated Uni-Field Gate. Hung on galvanised double band hinges with adjustable bottom eye. The hanging post is 2.10m long x 125mm x 100mm section, shaped four ways. The two slam posts are 1.80m long x 125mm x 100mm section. The ‘V’ shaped enclosure fence has four rails of 100mm x 38mm section morticed into each side of the corner post, which is also 1.80m long x 125mm x 100mm section. All manufactured from Jakcure® treated softwood. We recommend that all posts should be set in concrete. This unit is suitable for inserting in any type of fence in almost any situation.

# Metal Kissing Gate

Our metal kissing gates provide a solid rigid structure designed to allow the flow of pedestrian access in rural locations such as public footpaths or fields. These gates do not allow livestock to pass through keeping them safe and enclosed within a secure area.

### Our Galvanised Metal Kissing Gate

This popular self closing six rail Kissing gate is now available manufactured from hot dip galvanised metal, so it will resist rusting for many years and will be virtually maintenance free once installed.

**Specification:** Dimensions: 1520mm wide, 1170mm high. Manufactured from 25mm x 25mm RHS with four posts 50 x 50mm RHS including adjustable bottom hinge which allows the gate to swing shut either way. Supplied in three sections plus posts and location bars for below ground. All hot dipped galvanised. We recommend that the posts should be set in concrete. This unit is suitable for inserting in any type of fence in almost any situation.

Please note: this gate has been designed to fit into areas where space is minimal but access is required. It is not recommended for public footpaths as the design is under the minimum clear width of 1.1m, stated in BS5709:2018.
