

# METAL PLAYTIME® FENCING

Metal Playtime® fencing and gates are part of our playground fencing range, providing a safe enclosure to play areas and protection against vandalism, dog-fouling, and unwanted intrusion.

- Hot dip galvanised steel
- Welded pale-through-rail construction for galvanised or single powder coating colour option (multi-coloured versions features pales attached with tamper proof fixings)
- Pales extend through the bottom rail for galvanised or single powder coating colour option
- Range of colour coating options available including multi-coloured
- RoSPA approved
- Conforms to BS EN 1176 for play fences
- **25-year service life guarantee**
