

WELDED MESH FENCING

Our welded mesh fencing is available in both light and heavy duty options, providing a versatile solution for a wide range of domestic, commercial, and agricultural applications. Supplied in convenient rolls and available with a galvanised finish or durable green and black PVC coating, our welded mesh combines strength, longevity and ease of installation. Suitable for use with our tubular systems for sports facilities, commercial premises, schools, transport, and industrial applications.

Light Welded Mesh

- Supplied in 6m or 30m rolls
- Galvanised finish
- Ideal for pet cages, puppy runs, rabbit runs, and aviaries, greenhouse staging, making trays, baskets, seeding guards, squirrel protection
