All Jakcured timber bollards are guaranteed for 25 years  
 STRESS RELIEVED: 273800, 273900 and 272400 are stress relieved by having a saw cut in the middle of one side allowing the timber to move as it dries out or swells according to the weather, thus avoiding unsightly splits.

Reflectors complete with fixings

Jacksons Bollards are available in a variety of shapes and sizes as pictured on these pages. Their type varies according to their uses - from simple light weight timber bollards for demarcation purposes, separating pedestrians from traffic or for protecting vulnerable points like corners of buildings that could be accidentally hit by vehicles.

Base plated posts are available at an extra cost. Metal bollards are supplied galvanised as standard. Powder coating is extra, please ask for details. Steel bollards 'H' & 'J' are galvanised and polyester powder coated.

Metal Bollards 1.5m		Ref
Domed top 'E'	178mm x 5mm Diameter	136400
Pyramidal top 'F'	100 x 100 x 4mm RHS	137400
Gold Dome top 'H'	178 x 5mm Diameter	138600
Silver Dome top 'J'	178 x 5mm Diameter	138800

### Stainless Steel Bollards

Ideally suited for demarcation and contemporary applications. Stainless Steel bollards are 1.5m long (1m high nominal above ground), 101mm diameter with domed or sloping top. 316 grade not standard but available at extra cost. This new stainless steel version represents an impressive low lifetime cost courtesy of Jacksons unique 25 year service life guarantee.
