

Palisade panels

Palisade is a classic design of garden fencing, also known as picket fencing. Manufactured from superior quality, planed finish Jakcured softwood, guaranteed for 25 years and designed for use with slotted Jakposts, see pages 40 - 41.

Choice of pointed or rounded pale tops. All fittings and fixings are stainless steel. For matching gates see gates section on pages 56 - 60.

Palisade is also available in a traditional system with rails and pales, see pages 36 - 37.

Panels can be installed clear of the ground, or gravel boards need to be used when panels are in contact with the ground as part of the 25 year Jakcure guarantee conditions, see pages 42 - 43.

Specifications

All panels are 1.83m wide. Pales are 22 x 75mm nominal section planed to finish at 19mm thick. Pale tops are machined. Each panel is backed by two 2ex 100 x 38mm cant rails fully planed.

Palisade Level Top Panels (1.83m wide)

Height	Rounded pales	Pointed pales
	Ref	Ref
1.0m 2 rails	223500 ●	224500 ■
1.2m 2 rails	223600 ●	224600 ○

Concave Palisade Panels

The graduating pale heights create a curve between the posts.

All the panels are supplied in natural Jakcured finish (not painted), ready for priming, painting or staining, with round top pales.

Concave Palisade Panels (1.83m wide)

Height	Ref	
1.0m 2 rails	225050 ■	Panels can be cut to width on site without the need for a cut width kit. Always use Jakcure End Grain Treatment on cut timber, see page 45.
1.2m 2 rails	225100 ○

Traditional Palisade or picket fencing

Traditional Palisade fencing also known as picket fencing. 'Traditional' fencing is a term we use to describe a system of fencing made from vertical posts and horizontal rails, with pales fixed to the rails, supplied in kit form.

Specification

Pales are nominal 75 x 22mm section, (70 x 19mm finished sized) planed with pointed or rounded tops.

The posts are 0.6m longer than the height of the fence, planed and through-morticed.

When calculating the materials, you will need one post for every 2.28m section plus one extra for the end of the run.

Posts for 1m and 1.2m high fences are nominal 100 x 75mm section and have two mortices with tops weathered two ways or rounded.

Posts for 1.8m fences are nominal 125 x 75mm section and have three mortices with tops weathered two ways or rounded.

Corner posts are 0.6m longer than the height of the fence, 100 x 100mm section, planed and morticed two ways.

Rails two per section for 1m and 1.2m high and three per section for 1.8m high fence.

Manufactured from superior quality, Jakcured softwood, guaranteed for 25 years. All fittings and fixings are stainless steel. All timber is planed all round. For matching gates for Palisade see the gates section of this brochure - pages 56 - 60.

Traditional Closeboard or Featherboard

Traditional Featherboard (non-panel form) also known as closeboard or featheredge. 'Traditional' fencing is a term we use to describe a system of fencing made from vertical posts and horizontal rails and gravel boards, with pales fixed to the rails, supplied in kit form.

Specification

Featherboard Fencing is supplied in softwood Jakcured sawn finish. The pales are taper sawn, two from a 100 x 22mm section board, they are finished 150mm shorter than the height of the fence and stand on a 150mm gravel board as standard. Posts are 125 x 100mm section, for extra strength. The 1.2m fence posts have two recesses, and the 1.5m and 1.8m are recessed three times, for the rails. Post tops are weathered. Supplied in a natural Jakcured finish. Allow 1 post and 29 pales per 2.4m and one post for the end of a run.

Manufactured from superior quality, Jakcured softwood, guaranteed for 25 years. All fittings and fixings are stainless steel. All timber is planed all round.

For matching gates see the gates section of this brochure, see pages 56 - 60.
