March 2019

Crafted for Life, Made with Passion

Hopefully using this booklet to find the prices for our products in the Good Fencing Guide will be very simple and it should be almost self-explanatory after a look at the two books. However, here are some pointers:

If you identify the page number that the product is on, say it is Venetian and it's page 19 of the Good Fencing Guide, look at the right hand coloured margin on the page of the price booklet - this tells you at a glance which pages are covered on which page - for instance, you are looking for garden gates pages 62 - 66. It is also colour coded the same as the section colour in the main book to help you spot the section you want to be in.

Now look for the page heading on the page in the price booklet, Page 4 - Garden Fencing Panels should be easy to spot, and you should find columns for the product dimension, Reference code and Price. You may note a small image of some of the main products to help you even more, but please remember we are here to help with any queries you have, just call: **0800 41 43 43**.

Contents and Prices for Product Sections:

Garden Fencing Panels, Posts & Accessories.	1-7
Garden Gates	8-10
Trellis, Shelters and Decking	11-13
Gates: Entrance, Drive & Courtyard	14-15
Agricultural, Equestrian & Demarcation	16-21
Security, Chain Link & Miscellaneous	24-30
Jacksons Fencing Calculator	31
Metric Imperial Conversion Chart	32
Information on FSC® and PEFC	32
Approved Installer Programme	33
Delivery Charges	33

We're proud of the quality of our products, here's one of the biggest reasons why...

Not a lot of people realise it, but even though Jacksons is one of the biggest fencing companies in the UK, people are amazed to find that our fencing and gates are hand made. Of course there are parts of the production process that are automated and machinery takes care of some of the cutting and drilling, but it's the hands on approach that makes the difference.

The Jacksons staff know that what they do is a hugely important part of the process. They are trained to assemble panels and gates with great care, checking every component that passes through their hands, as they run an experienced eye over the timber, noticing blemishes or knots. Anything that doesn't pass our strict quality control procedures and guidelines is taken out to be re-purposed. Nothing goes to waste, and it's this attention to detail and constant watchfulness over quality that is a key part of what makes a Jacksons fence, a great fence.

Courtyard Gates (pages 94 - 95)

Standard Courtyard Gates

We have a stock of our most popular sizes of the Hythe and the Rye gate below, for any other style or size please ask for a quotation, with no obligation.

A1 & A2

Self closing adjustable hinge for timber gate	354400 ●	£48.80			
Self closing adjustable hinge for steel gate	354420 ●	£31.00			

Safety Warning: Jacksons magnetic pull latches are designed to be operated by adults only. Children must be supervised at all times if operating moving parts.

The Vertical Pull Latch is ideal for gates that need to always be closed, for example swimming pool gates and where you need to confine pets, only to be operated by an adult.

Ref 354330 ● Price £44.95

The Extended Pull Latch is the same as the Vertical Pull Latch, but the handle has been extended to ensure toddlers cannot reach the latch.

Ref 354500 ● Price £46.70

The Pull Latch is a general all purpose latch suitable for gates that do not require the security of a keyed lock.

Ref 354200 ● Price £19.40

More Reasons to Choose Jacksons Fencing

Jacksons has achieved certification under the environmental chain-of-custody schemes of both the FSC[®] (Forest Stewardship Council[®]) and the PEFC[™] (Programme for the Endorsement of Forest Certification[™]).

The majority of our timber product range can be offered certified under one of these two schemes. The environmental chain-of-custody which is monitored from forest source, to primary producer sawmills, through to Jacksons, allows us to ensure that all timber used in certified Jacksons products has been sourced from well managed forests and other controlled sources. However, despite the enormous added environmental and social value that this brings, there is no increased price to the customer. (Ask for FSC[®] or PEFC[™] certified products).

Jacksons Fencing: Approved Installer Programme

Jacksons offers you a nationwide service that you can absolutely rely on. Our Approved Installers have all been carefully selected and are highly experienced professionals who will do the job competitively and without skimping - and get it right!

We have developed a Customer Charter for your reassurance of our joint commitment to quality. This Charter establishes the Code of Practice expected from a Jacksons Approved Installer and your expectations from them.

A copy of your Charter will be presented to you with your quotation.

Throughout the process from enquiry to completion of the installation, specific quality procedures must be adhered to by both Jacksons and the Jacksons Expert Installer. These cover all aspects of the installation in accordance with Jacksons instructions and best practices, working competently and responsibly throughout the duration of the contract.

Please call - 0800 41 43 43 with your initial enquiry and we will arrange for a Jacksons Approved Installer to contact you and give you a no obligation quotation.
