

PineGroove Panel

Our solid, vertically clad fence panel, PineGroove, is designed to combine strength, privacy, style, and durability. This unique panel features alternating width interlocking 24mm thick timber boards, making it excellent for noise reduction, while creating a striking contemporary look that stands out in any outdoor space.

- All timber used throughout is superior quality Jakcure[®] treated softwood guaranteed for 25 years.
- All fixings are stainless steel.
- Panels are designed to be stacked to increase height.
- Designed for use with slotted Jakposts[®].
- All timber is planed all round.
- Gravel boards are required where panels are in contact with the ground.

Specification

Panel Heights: 0.90m, stackable

Panel Width: 1.83m

Panel Thickness: 48mm, 24mm thick pales

Rails: Two per panel; 69 x 24mm section

Join: 23mm thick T piece with 40mm front face

Panels can be cut to a desired width on site. Always use Jakcure[®] End Grain Treatment on any cut timber.

Gates

Brook and Brabourne gates complement this panel. Supplied in natural Jakcure[®] treated finish, right and left hand hanging (when viewed from the outside). Non-standard gates with custom width / heights are available as a special order and are also available as pairs (size restriction applies).

- Galvanised ring latch and adjustable hook and band hinges are included.
- All fixings and fittings are galvanised or stainless steel.
- Wall plates are available for fitting these gates to walls.

Standard Gate Heights: 1.93m

Standard Gate Widths: 1m
