

Featherboard Panel - Convex Top

Jacksons Fencing

One of the strongest panel fences available, our featherboard panels take a traditional close board, or feather edge fence design and make it better and more convenient with an improved design. Featherboard panels are constructed with either 2 or 3 rails (depending on the height), clad with 100mm pales to provide one of the strongest close board panel fences available.

- All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.
- All fixings are stainless steel.
- Designed for use with slotted Jakposts®.
- Rails have an attractive angled edge and are precision sawn, resulting in a neater finish and increased strength.
- Taller panels constructed from three rails for extra strength.
- Panels can be raked to follow sloping ground, if desired.
- Gravel boards are required where panels are in contact with the ground.

Specification

Panel Heights: 1.05m 1.2m 1.35m 1.5m 1.65m 1.8m

Panel Width: 1.83m

Rails: Middle Rail - 2ex 100mm x 38mm. Top/bottom Rail - 2ex 150 x 38mm.

Panel height is to the centre of the curve. Curve drop is approx. 150mm.

Pales: 100mm wide

Featherboard panels are non-framed and the panels width reduced without the need for a cut-down kit. Always use Jakcure® End Grain Treatment on cut timber.

Gates

Featherboard gates have a Jakcure® treated softwood sawn finish and are constructed with galvanised bolts and stainless steel nails. Right hand hanging 1m wide as standard (left hand hanging and different widths also available but may require slightly longer lead times). Non-standard gates with custom width / heights are available as a special order and are also available as pairs (size restriction applies). Note: Curve drop may vary on special gates compared to standard gates.

- Elegantly designed to match our convex Featherboard panels.
- Galvanised ring latches and adjustable hinges.
- All fixings and fittings are galvanised or stainless steel.
- Wall plates are available for fitting these gates to walls.

Standard Gate Heights: from 1.15m to 1.75m (at highest point).

Standard Gate Widths: 1m
