

Woven Retreat

Jacksons Fencing

Designed using our popular handcrafted Woven panels for the sides and roof, the Woven Retreat Shelter is a unique garden structure that will create a delightful 'retreat' in any garden. The Woven panels give the shelter an attractive contemporary design and when the sun is shining, cast dramatic patterns of light and shade. Constructed from Jakcure® treated softwood our Woven Retreat is approximately 2100mm high at the front, 2000mm at the back.

- All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.
- All fixings are stainless steel.
- Extra panel can be added at the open side
- Wider versions of the retreat can be achieved by adding a third bay (one extra panel)

Specification

Retreat specifications: 2100mm at front 2000mm at back 3325mm wide 1676mm from front post to rear post (1923mm including roof overhang)

The standard Retreat is a single unit version, as shown above. If desired, an extra panel can be added at the open side.

The Retreat is available with or without a polycarbonate roof covering. The polycarbonate panel sits on top of the Venetian roof panels with the rear edges protruding over the rear fascia to allow rain water to run off, and the polycarbonate box section channels running in line with the pales, across the roof.
